

IMPBA District 13
12TH Season
District Championship

Dear Friend,

2007 will be the 12th year District 13 of the **International Model Power Boat Association** has held a championship series. The District Highpoint Series features many classes of boats with speeds ranging from 35 mph to over 80 mph. Drivers will compete in six races in four cities in South Carolina and Georgia to win our District Trophies. The trophies are awarded to the top three drivers in each class at the end of the year. In 2001 we added the Grand Prix series which is smaller, but also awards District trophies in fourteen classes. These races are smaller than our Highpoint races and they make it easier for new boaters to break into racing.

District 13 was established in 1996 with the goal of promoting radio control power boat racing in South Carolina and Georgia. Our biggest race is the Spring Nationals held in Atlanta that attracts competitors from all over the country who bring over 250 boats annually.

The success of our District would not be possible without the support from our distributors, manufacturers and friends such as you through your donations and trophy sponsorship. As a class sponsor, your name will appear on the district trophies awarded at the end of the year and also on our website with a link to your website. We hope that we can count on you for your generous support for another successful season of fun, family and intense competition.

Thanking you in advance,
Bob Halliday
Director IMPBA District 13
